

Gramener Case Study

Loan Risk Assessment

Abhinava Chandra
Apurv Gaurav
Subrat Samant
Vijay Mudivedu

Aim:

- Identifying and profiling the customers that are marked as charged off loans to cut down the credit loss for LendingClub
- Analyzing the parameters behind loan default
- Develop an understanding of loan and customer attributes
- Suggest parameters to develop risk assessment

Results Expected:

- Analysis of various parameters that impact credit loss
- Portfolio of Risky customers

Step 1

Identify and eliminate
Variables that do not
impact loans

Analysing the motive for
Charged Off Customers

Calculate the Credit Loss

Step 2

Analyse the impact of
Customer attributes and
Loan attributes on Credit
Loss

Analyse the Parameters,
Using Univariate,
Segmented, and
Bivariate approach

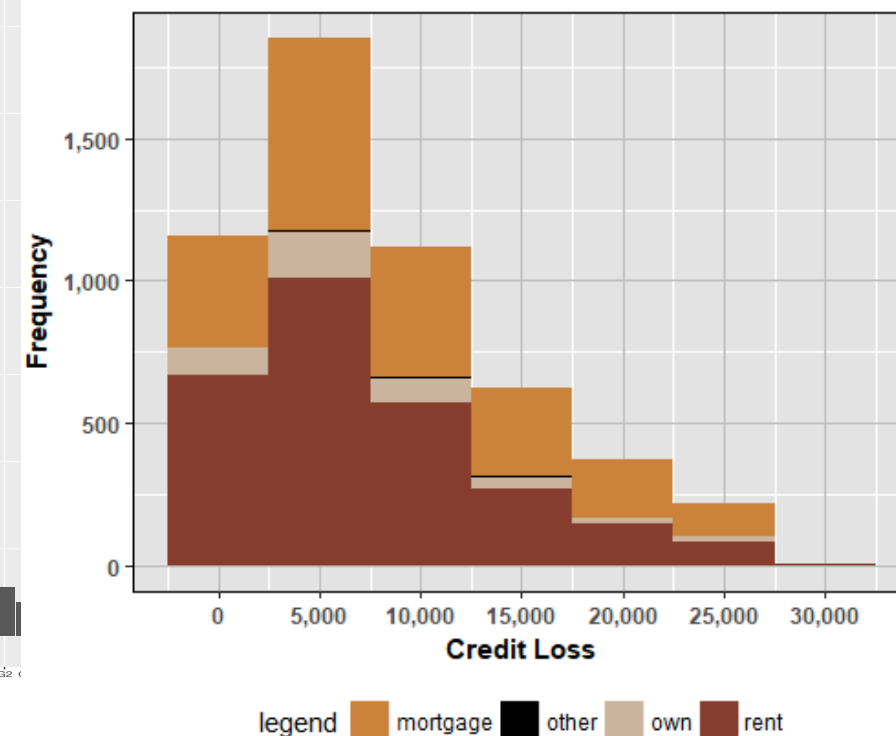

Step 3

Build a Profile of Risky
Customers

Annual income distribution for each grade

Impact of home ownership on credit loss

Grades	Ownership	Sub grades
Annual Income: 25K – 75 K	: Rent, mortgage	B5,B3,C1,B4,C2,D2

Employer-wise count of defaults

Impact of verification status on credit loss

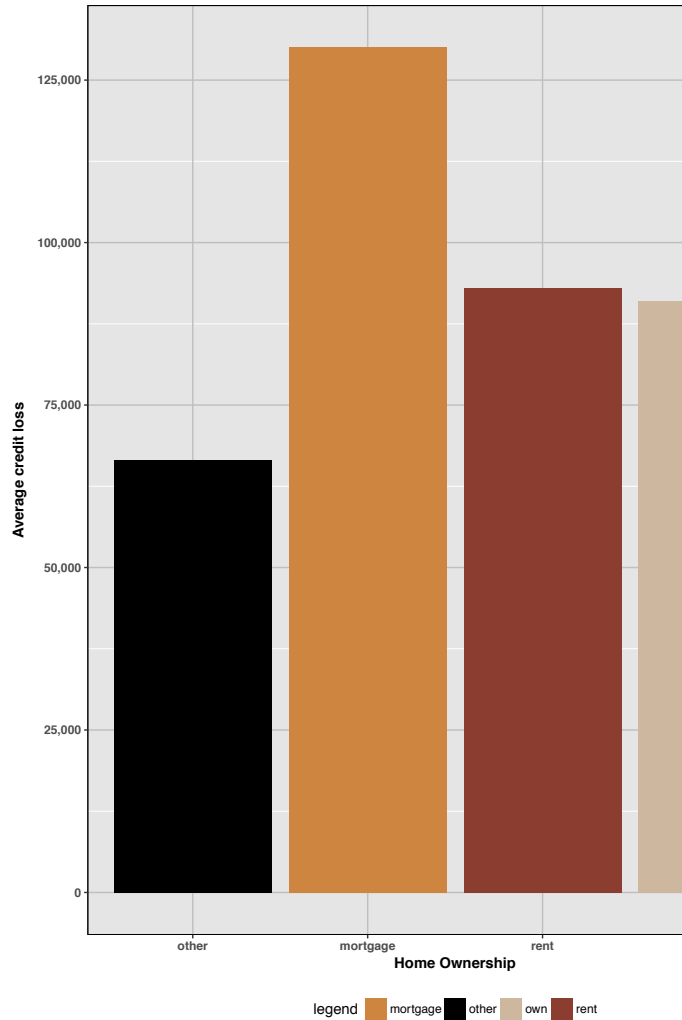

Impact of purpose 'purpose' on credit loss

Segmented Analysis – Customer attributes

Average credit loss by home ownership

loan amount and credit loss

employment in years and veri status

Annual income between 25K to 60K caused significant credit loss

Loan amount of average 0-10K
credit loss is the highest

Purpose	Employer
Debt consolidation	US Army and US Postal Service
Small Business	Self Employed
Credit Cards	US Postal Services
Other	US Army, Self Employed

Correlation of various parameters on credit loss

Factors that influence based on heat map:

1. Loan Amount

2. Loan Term

3. Interest Rate

4. Annual Income

5. Revolving Balance

loan attributes	Value Range	customer attributes	Value Range
loan amouunt	2K – 4K	annual income	30_60K
term	36 months	emp_years	10+,9,7
interest rate	13_17%	emp title	US army, US post service, walmart
verification_status	verified, source verified	grade	BCDE
purpose	Debt Consolidation	subgrade	B5,B3,C1,B4,C2,D2,C3
		home_ownership	Rent, Mortagaged
		inquiries-last_6_months	0,1,2,3
		open_acc	4,6,8,10
		revol_uti	25_90%

- Risk Profile of Risky customers has been analyzed about
- **customer attributes:**
 - annual income, experience, job title, grade, subgrade, home ownership, inquiries-last_6_months, open_acc, revolving balance
- **loan attributes:**
 - loan amount, term, interest rate, verification status, purpose
